

ESTATE type 70 lighting pole

DESIGNERS AND MANUFACTURERS OF
URBAN STREETWARE AND LIGHTPOLES

GOLDSPAR

Used extensively for parks, gardens and street lighting, Estate is a pole style suited to any application.

A sixteen-sided fluted tube gives its base a classical Greek column look, with a curved transition and conical tapered alloy top tube. A plain tube base is also available.

Aluminium gives this pole the advantages of light weight (a 4 metre pole weighs about 25kgs), making it easy for one man to move and install it.

Structural note:

Goldspar tapered aluminium light poles are manufactured to comply with Australian Standards (AS1170.2 -1989) from high quality 6000 Series aluminium tube.

All poles have structural engineering certification for above ground structures.

Type 70 - specifications

Code	H	D1	D2
70/3.5	3500	76	236
70/4	4000	76	236
70/4.5	4500	76	236
70/5	5000	76	236
70/6	6000	76	236
70/7	7000	76	236
70/8	8000	76	236

Average depth for footing is 1/10th pole height (consult your structural engineer).
