tapered flagpoles

DESIGNERS AND MANUFACTURERS OF  
URBAN STREETWARE AND LIGHTPOLES

# GOLDSPAR

Goldspar flag poles at National Federal Building, Dubai, UAE

- Australiana tapered aluminium flagpoles are available in a durable white powder-coated finish or clear anodised finish. Special finishes to complement architectural design are available as optional extras
- Mass produced and available ex-stock at competitive prices
- Australiana tapered flagpoles can be wall mounted on brackets
- Australiana aluminium flagpoles are virtually maintenance-free
- Cast aluminium finials are available in classic mushroom shapes and eliminate durability problems of plastics
- Optional bullet/spherical shaped finials or rotating finials available
- Dress collars (14 gauge spun aluminium) can be fitted loosely over flagpole bases and foundation bolts to enhance overall flagpole appearance (optional extra)
- Goldspar's internal halyard system minimises the risk of flag theft and is available as an optional extra on ground mounted poles
- Flagpoles over 6 metres are produced in more than one section for ease of handling and transport. The sections socket together for a neat flush finish
- Delivered in protective plastic covering

#### Structural Note:

Goldspar tapered aluminium flagpoles are manufactured to comply with Australian Standards (AS1170.2 –1989) from high quality 6063/6060 aluminium tube.

All poles have structural engineering certification for above ground structures. Consult your structural engineer for footings type and soil conditions,

#### Australiana – specifications

Exposed height	Base OD	TopOD	Wall	No.sections (6600 max)	Base type	Max. flag*
6000	80	46	2	1	A,B,C	2Y
