

# AUSTRALIANA

tapered flagpoles

External halyard flag rope

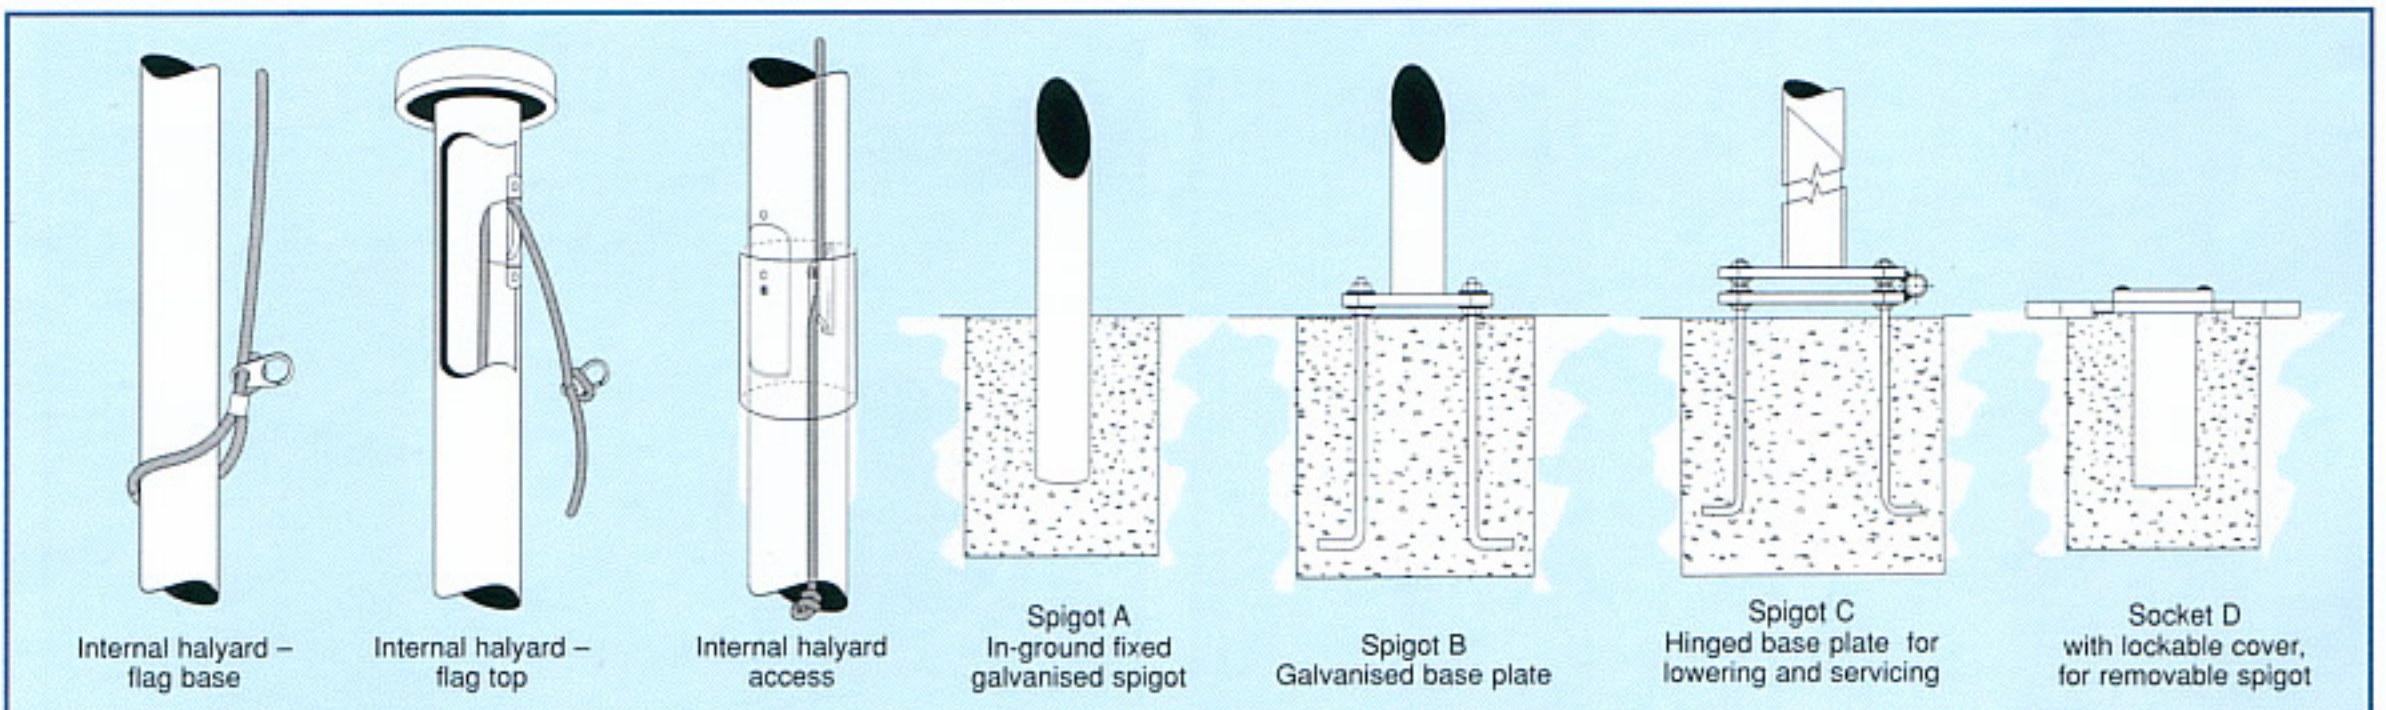

DESIGNERS AND MANUFACTURERS OF URBAN STREETWARE AND LIGHTPOLES

Designed to enhance the look of public and corporate spaces, Australiana aluminium flagpoles are elegantly tapered using Goldspar's unique production processes.

Elegant, durable and maintenance-free, Goldspar aluminium flagpoles add the perfect finishing touch to museums, embassies, hotels, exhibition centres, business parks or other commercial and residential applications.

Australiana tapered flagpoles range from 3 metres to 20 metres and are designed to withstand winds of up to 180 km/h (higher-load poles available to special order).

Average depth for footing is 1/10th pole height (consult your structural engineer).
